OFFICE OF THE COURIES. JURNAL,
LOUISVIALE, KY.

Dr. Wintersmith—Sir: I waive a rule I have observed for many years, the value of your remedy prompting me to say, in reply to your reguest, what I know of your Ohill Cure. The private assurances of its effects I had observed on Mr. R. W. Meredith, who, for more than officen years, had been forsman of my office, induced me to test it in my family. The results have been entirely satisfactory. The first case was of two years' standing, in which I believe every known remedy had been tried with temporary relief—the chills returning periodically and with seemingly increased, severity. Your cure broke them at once, and there has been no recurrence of them for more than six months. The other case was of a milder form, and yielded more readily to other remedies; but the chills would return at intervals until your medicine was used, since which time, now several months, they save entirely disappeared. From the opportunity I have had to ludge, I do not heritate to express my belief that year Chill Cure is a valuable specific, and performs all you promise for it. Bespecifully.
